 CC * NOTE: This is a 'working draft' sequence. It currently
 CC * consists of 2 contigs. Gaps between the contigs
 CC * are represented as runs of N. The order of the pieces
 CC * is believed to be correct as given, however the sizes
 CC * of the gaps between them are based on estimates that have
 CC * provided by the submittor.

CC * This sequence will be replaced
 CC * by the finished sequence as soon as it is available and
 CC * the accession number will be preserved.
 CC * 1 76468: contig of 76468 bp in length
 CC * 76469 76568: gap of 100 bp
 CC * 76569 150587: contig of 74019 bp in length.
